

- EXPLANATION**
- Line Type**
- reservoir water line
 - contact, well located
 - contact, approximately located
 - contact, concealed
 - moraine crest
 - landslide scarp
 - normal fault, well located
 - normal fault, approximately located
 - normal fault, concealed
 - lineament
 - ▲▲ thrust fault, well located
 - ▲▲▲ thrust fault, approximately located
 - ▲▲▲ thrust fault, concealed
 - ▲▲ low-angle normal fault, well located
 - ▲▲ low-angle normal fault, approximately located
 - ▲▲ low-angle normal fault, concealed
 - detachment fault, well located
 - fold axis, well located
 - fold axis, approximately located
 - fold axis, concealed
 - leader line
 - 7.5' quadrangle boundaries

SCALE 1:62,500

Progress Report Geologic Map of the East Part of the Provo 30' x 60' Quadrangle, Utah
(year 3 of a multiyear project) by Kurt N. Constenius and James C. Coogan
2003

This open-file release is a progress report that provides the public with the results of the third year of mapping of a multi-year project. The map is incomplete and contains inconsistencies, errors, and omissions have not been resolved. This map may not conform to UGS policy and editorial standards and it may be premature for any direct, indirect, special, incidental, or consequential damages with respect to claims by users of this product.

Although this product is the work of professional scientists, the Utah Department of Natural Resources, Utah Geological Survey, makes no warranty, stated or implied, regarding its suitability for a particular use. The Utah Department of Natural Resources Utah Geological Survey, shall not be liable under any circumstances for any direct, indirect, special, incidental, or consequential damages with respect to claims by users of this product.
